🏆 Achievements

Speaker, Grace Hopper Celebration 2023
Gave my first in-person conference talk to hundreds of attendees at GHC! My session was focused on teaching new features in Java 17+.

Florafy App, Backyard Hacks 📁 2021
Developed an Android app that can use a phone's camera to scan and identify a plant type. I trained a machine learning model with Google's AutoML, and developed this app within the 48-hour timeframe given for the hackathon!

Velocity Hackathon, 1st Place, Scotiabank 2019

🧠 Languages and Frameworks

Java, Python, SQL Spring

Android Development HTML, CSS, JavaScript
